

Write a python function to count the number of vowels in a string.

```
def vowels(text):  
    vowels = "aeiouAEIOU"  
    count = 0  
  
    for char in text:  
        if char in vowels:  
            count = count + 1  
  
    return count  
  
message = "hello world"  
result = vowels(message)  
  
print("number of vowels:", result)
```

Output:
number of vowels: 3
